## SUMMARY

---

Experienced final year college student with a strong passion for web development and a growing knowledge of Java programming. Aspiring to become a developer, I believe in the power of creativity as a driving force in the field. Seeking opportunities to apply my skills and contribute to innovative projects in the industry.

## EXPERIENCE

---

01/2024 – present

### OASIS INFOBYTE

#### Web Development & Designing

- Developed a **CV generator project** using front-end technologies.
- Gaining practical experience in front-end web development and enhancing problem-solving skills.

11/2023 – 12/2023

### CODSOFT

#### Web Development Intern

- Completed an internship focused on HTML, CSS and JavaScript.
- Engaged in designing a landing page, portfolio, and calculator using HTML, CSS, and JavaScript.
- Gained practical experience in HTML, CSS, and JavaScript during the project.

## PROJECTS

---

10/2023 – 11/2023

### TO-DO LIST PROJECT (BACKEND)

I recently completed a dynamic To-Do List project, leveraging my skills in **EJS**, **Node.js**, **JavaScript** and **MongoDB**. This backend application empowers users to seamlessly create, manage, and remove tasks from their list with just a simple checkbox click. It's a practical and efficient solution for staying organized and boosting productivity. Proud to have developed this project to streamline daily tasks and enhance user experiences.

9/2023 – 10/2023

### FASHINO – E COMMERCE WEBSITE

- Developed Fashino, an innovative E-commerce clothing website, offering a dynamic shopping experience with a wide fashion range.
- Utilized **HTML**, **CSS**, **Bootstrap**, and **jQuery** expertise to create a visually appealing, user-friendly, and accessible interface.
- Ensured website responsiveness across devices, optimizing user experiences on desktops, tablets, and smartphones.

TEXTUTILS – REACT PROJECT

TextUtils, a robust **React frontend website** designed for **text manipulation** and analysis! Features include seamless case conversion, JavaScript-powered text-to-speech functionality, and real-time word and character count for content analysis. Estimate reading time and personalize your experience with **Dark Mode** & **Contrast Mode**, enhancing readability. Built with **React** and **JavaScript**, TextUtils offers a user-friendly interface for effortless text enhancement. Visit the website, input your text, and explore these dynamic features.

RESUME GENERATOR PROJECT

Empowering individuals to create standout CVs effortlessly, I utilized HTML, CSS, and JavaScript, coupled with Bootstrap framework templates. The platform ensures a seamless user experience, guiding users through inputting key details such as a profile photo, name, and experience. Personalization is a breeze, with features like **photo upload feature** and achievement customization. The Print Ready function allows users to conveniently **print their polished CVs** directly from the app. Proficient in HTML, CSS, JavaScript, and Bootstrap, I've crafted a dynamic tool to simplify and elevate the CV creation process! ✨

EDUCATION

2020–2024	<b>KNS INSTITUTE OF TECHNOLOGY</b> Bachelor of Engineering, Computer Science	<b>CGPA 7.6</b>
2017–2019	<b>HOLY MISSION SECONDARY SCHOOL</b> Intermediate (12th), PCM	
2007–2017	<b>KENDRIYA VIDYALAYA</b> Matriculation (10th)
